

FOUNDATIONS AND INTERFACE

Warm judgment. Exact execution.

The visual foundation for a company that combines strategic judgment, proprietary context and machine-speed execution - without becoming cold, decorative or loud.

THE OPERATING IDEA

Soft enough to invite. Exact enough to trust.

Dagg must feel like strategic authority and technical execution in the same system. Warm materials communicate judgment. Exact structure communicates control. Product evidence carries the claim.

*01***Warm, not beige**

Paper is the reading world. Ink is the instrument. Coral is an intervention, not decoration.

*02***Sparse, not empty**

Whitespace creates hierarchy only when every object earns its position and carries meaning.

*03***Proof, not hype**

Mechanisms, records and outcomes replace ungrounded claims about intelligence or speed.

*04***Motion, not spectacle**

Movement reveals state, transition and causality. It never exists merely to look advanced.

EIGHT SEMANTIC ROLES

A warm field. A precise machine. Two signals.

No extra brand hue exists. Neutrals are derived from Ink or Paper. Each accent has one job.

PAPER

#F0EEE6

Primary reading ground

LIFT

#FAF9F5

Short editorial lift

CORAL

#D97757

Human intervention

CORAL DEEP

#9E4A2E

Accessible action

SAGE

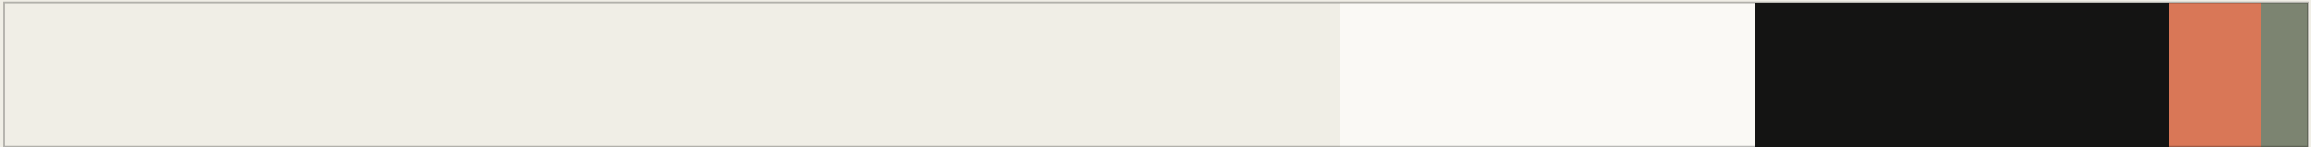

#7C8471

Boundary and stable state

PAGE-LEVEL RANGE

Warmth carries the page. Signals stay scarce.

These are composition ranges, not pixel quotas. They prevent a cold black site and also prevent a beige editorial wash.

PAPER 55-60%

● LIFT 15-20%

● INK 15-20%

● CORAL 4-6%

● SAGE 2-4%

GROUND

At most three page-ground changes. Warm paper remains the home base.

INK

Contained inside mechanisms. Full bleed only for a decisive act or final close.

CORAL

Marks a human choice, intervention or accessible action. Never a stripe.

READABILITY IS A MATERIAL RULE

The warm palette still has to work hard.

Accessible combinations are frozen. Coral and Sage remain expressive because they are not asked to do jobs they cannot perform.

Readable evidence

THREE VOICES, THREE JOBS

Structure, judgment and instrumentation.

The website ships vendored fonts only: Geist, Newsreader and JetBrains Mono. No remote font request is permitted.

GEIST / DECISIONS AND STRUCTURE

From strategy to execution.

Headings, navigation, actions and interface labels. Direct, modern and exact.

NEWSREADER / JUDGMENT AND REFLECTION

The decision comes before the build.

Leads, explanatory prose, captions and selective editorial emphasis.

JETBRAINS MONO / REAL METADATA ONLY

```
decision.status    human_review_required
context.version    company_record_034
```

Never body copy. Never decorative code.

CONTINUOUS FROM 320 TO 1440

Large ideas. Short measures. No breakpoint jump.

Type scales smoothly at every width. The endpoints below are fixed acceptance values, not approximate art direction.

ROLE	1440 / 390 / 320	LEADING	MEASURE RULE
H1	68 / 44 / 42 px	1.02	17 words / 2.5 lines
H2	52 / 36 / 34 px	1.07	3 lines
H3	32 / 27 / 26 px	1.12	Conclusion only
Lead	23 / 20 / 19 px	1.44	Up to 42 words
Body	18 / 17 / 17 px	1.62	560-620 px measure
Meta	13 / 12 / 12 px	1.42	Never below 12 px

A headline earns scale by carrying a conclusion, not a topic.

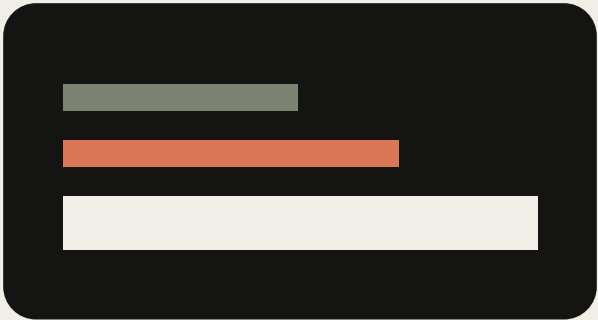

ONE FIELD, MULTIPLE COMPOSITIONS

Twelve columns. Editorial asymmetry. Mobile recomposed.

The grid gives precision without turning every section into the same template. Reading order never changes at collapse.

MOBILE IS COMPOSED, NOT STACKED

FIELD

1240 px maximum

GAP

24 px below 1024 / 32 px above

GUTTER

20 / 24 / 48 / 72 px

COLLAPSE

940 px

PRODUCT SPLIT

45 / 55

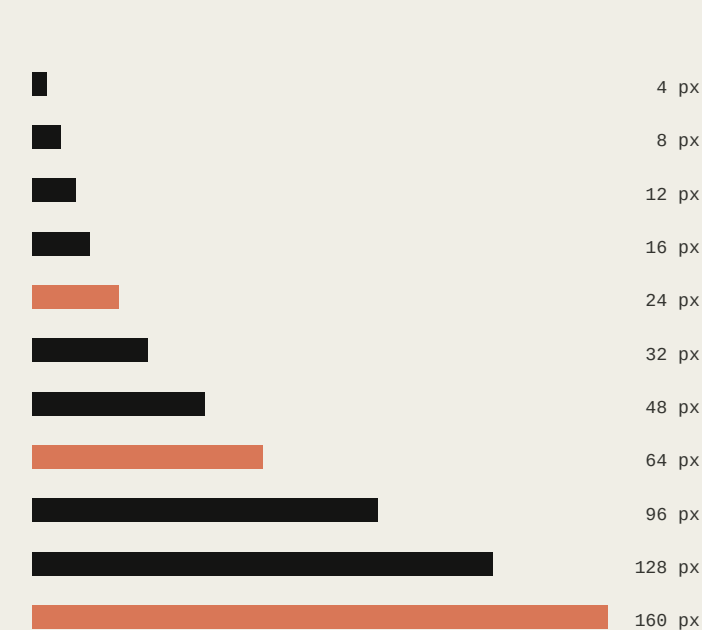

READING ORDER

Identical at every width

BREATH WITH INTENT

Space is paced like an argument.

Section rhythm controls attention. It is not a global padding value repeated until the page becomes a slide deck.

SECTION RHYTHM

Large act

160 / 112 / 88

Medium act

112 / 88 / 64

Punctuation block

240-360 px desktop

Ground changes

Maximum three per page

Desktop / tablet / mobile values are listed in that order.

MATERIAL, NOT CARD GRID

Three surfaces. Three radii. One reason each.

Rounded shape is assigned by meaning. A page section has no radius. An instrument does not pretend to be a soft content card.

4 px

CONTROL

Buttons, chips and small detail

10 px

SURFACE

Contained editorial material

14 px

INSTRUMENT

Mechanisms and dark product states

DO Use ground changes and material depth to create hierarchy.

DO NOT Turn every idea into a floating rounded card.

COMPACT, DIRECT, ACCESSIBLE

Actions look like actions.

No pills. No ambiguous labels. Links remain visibly links. Every target is at least 44 by 44 px.

WARM GROUND

START AN ASSESSMENT

[Read the transformation thesis](#)

INK GROUND

START AN ASSESSMENT

EXPLORE

[Inspect the operating record](#)

TARGET	MOBILE NAV	FOCUS	WARM FOCUS	INK FOCUS
44 px minimum	48 px minimum	2 px ring / 2 px offset	Ink	Paper

MODERNITY THROUGH BEHAVIOR

An adaptive system, not a purchased mega-menu.

Most routes remain direct. Build earns a flyout because it has real depth. The panel adapts to content and preserves ordinary links.

ASSESSMENT

Build overview

Dagg Factory

Agents and software

Operating role

FACTORY / BUILD RECORD

One decision becomes a buildable system.

OPEN INTENT

70-100 ms

CLOSE GRACE

180-240 ms

PANEL MORPH

180-240 ms

CROSSFADE

100-140 ms

KEYBOARD

Enter / Space / Escape

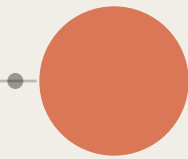

MOVEMENT MUST EXPLAIN

Motion reveals causality.

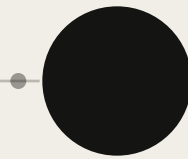

Dagg moves from context to decision to execution. Animation should make that transition legible, then get out of the way.

**CONTEXT**

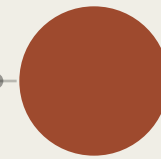

record enters

**DECISION**

judgment changes state

**BUILD**

system resolves

**OPERATE**

state remains inspectable

NORMAL MOTION

micro 180 ms / response 240 ms / no overshoot

REDUCED MOTION

Snap position and size. Preserve labels and resolved meaning.

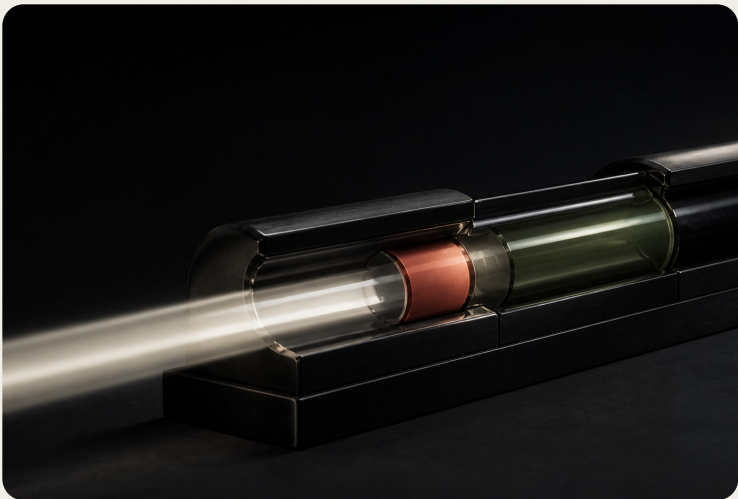

ONE SYSTEM, THREE ROLES

The visual hierarchy is intentionally unequal.

Decision Field is the world. Operational Evidence is the proof. Machine Signal is the restrained transition language.

70%
DECISION FIELD
Primary world

25%
OPERATIONAL EVIDENCE
Proof and mechanism

5%
MACHINE SIGNAL
Transition only

WHAT CREATES THE WHOLE FEEL

Three documents. One implementation truth.

The first two documents establish the full visual direction. The third must be extracted from the accepted vertical slice so code, behavior and documentation remain one system.

01	Image Language System Still image, motion grammar and the 70 / 25 / 5 hierarchy.	COMPLETE
02	Foundations and Interface Palette, type, grid, spacing, surfaces, actions, navigation and motion.	COMPLETE
03	Component and Interaction Library Real header, flyout, hero, mechanisms, cards, records, footer and responsive states.	NEXT
